To work in a firm with a professional, growth-driven environment where I can utilize and apply my knowledge and skills, enabling me as a fresh graduate to grow while contributing to organizational goals.

Academics

Vel Tech University, Chennai, Tamil Nadu

Bachelor of Engineering (CSE) -CGPA: 7.54

2023 – 2027

Gurukrupa Junior College, Siddipet, Telangana

Intermediate -(MPC)-Percentage: 72.6%

2022 – 2023

Vikas High School, Siddipet, Telangana

SSC — GPA: 10.0

2012 – 2021

SKILLS

Languages : Java

Tools & Technologies : HTML, CSGitHub, VS Code, LaTeX, MySQL, Full Stack Developer, Web Developer, Excel

PROJECTS

Driverless Seed Sowing Machine Using IoT

2024

Developed an IoT-enabled autonomous seed-sowing system that automates seed dispensing and farm navigation for efficient agriculture.

Recyclable Solid Waste Detection Using Deep Learning

2025

Built a CNN model to classify recyclable vs non-recyclable waste and deployed it with a simple UI for automated waste segregation.

Design & development of smart tyres with inbuilt sensors and battery life of 5 years

2026

Designed and developed smart tyres integrated with inbuilt IoT sensors for real-time performance monitoring and predictive maintenance. Engineered an ultra-efficient power management system, successfully delivering a continuous, maintenance-free battery life of over 5 years.

CERTIFICATIONS

Online Courses: Completed various certified courses in infosys springboard
